

APPRAISAL REPORT OF

Brenten W. Johnson

923 Berkely Rd

Columbus, OH 43206

AS OF

09/13/2015 estimated value = \$32,000

PREPARED FOR

[REDACTED]
Louis F. Kort, Attorney at Law
388 S High St
Columbus OH 43215

PREPARED BY

Gary A Josephson
Real Estate Appraisal Services
PO Box 10189
Columbus , OH 43201

Certification of: Limited Appraisal and Summary Report

Attorney: Louis F Kort
388 S High St
Columbus, OH 43215

Property Appraised: Brenten W. Johnson
923 Berkeley Rd
Columbus OH 43206

Estimate of Market Value: \$ 32,000 as of 09/13/2015

Report Description, Purpose, USPAP, Departure,
Limiting Conditions and Certification:

1. This Report is a Special Purpose Limited Appraisal and Summary Report where the client has indicated that it is sufficient for their needs for the Probate Court, US Bankruptcy Court, Divorce Proceedings, or a Market Evaluation.
2. Analysis, opinions, and conclusions were developed and this report has been prepared (as far as possible) in conformity to the Uniform Standards of Professional Appraisal Practice [USPAP].
3. The Departure provision of USPAP is invoked. The limiting conditions include the client's recognition that a limited appraisal could indicate a value with less accuracy than a full appraisal. This appraiser retains a file of documentation and supporting evidence used for this appraisal.
4. Analysis and conclusions are based on appropriate closed sales of "arms length" transactions where properties have had a reasonable exposure to market conditions. Data sources are public record data or other typically accepted sources.
5. This appraiser has personally inspected subject and comparables from the street and performed appropriate and customary data collection and analysis in arriving at the estimated market value of the subject property. When reliable photos and information are available an on site inspection may not occur. Occasionally photos from other sources are utilized such as google, MLS, and Bing.
6. Estimated market value is primarily based on the sales comparison approach as the most appropriate method after due consideration of the cost and income approaches to value which may support but do not replace a sales comparison. This method best reflects typical actions of buyers and sellers in the marketplace. Cost approach not sufficient due to the margin of error in the age-life method of depreciation. Income approach not appropriate for neighborhoods consisting of non-rental dwellings, but typically supports sales approach for neighborhoods with a significant percentage of rentals.
7. I certify that the facts herein are to the best of my knowledge true and correct, that the opinions are my own and made impartially, and that I have sufficient knowledge and experience to prepare this estimate of value. Furthermore, I have no interest in the subject property, no predetermined results were required, compensation was not contingent on value, and no one provided me with any significant appraisal assistance in the preparation of this report.

Total number of units rented _____ Total number of units for sale _____ Data Source(s) _____

Was the project created by the conversion of existing buildings into a condominium? ☐ Yes ☐ No If yes, date of conversion: _____Project Type: ☐ Primary Residence ☐ Second Home or Recreational ☐ Row or Townhouse ☐ Garden ☐ Midrise ☐ Highrise ☐ _____

Condition of the project, quality of construction, unit mix, etc.: _____

Are the common elements completed? ☐ Yes ☐ No If No, describe status of completion: _____Are any common elements leased to or by the Home Owners' Association? ☐ Yes ☐ No If yes, attach addendum describing rental terms and options.

Describe common elements and recreational facilities: _____

PURPOSE OF APPRAISAL: The purpose of this appraisal is to estimate the market value of the real property that is the subject of this report based on a quantitative sales comparison analysis for use in a mortgage finance transaction.

DEFINITION OF MARKET VALUE: The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he considers his own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions* granted by anyone associated with the sale.

*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

STATEMENT OF LIMITING CONDITIONS AND APPRAISER'S CERTIFICATION

CONTINGENT AND LIMITING CONDITIONS: The appraiser's certification that appears in the appraisal report is subject to the following conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it. The appraiser assumes that the title is good and marketable and, therefore, will not render any opinions about the title. The property is appraised on the basis of it being under responsible ownership.
2. The appraiser has provided any required sketch in the appraisal report to show approximate dimensions of the improvements and the sketch is included only to assist the reader of the report in visualizing the property and understanding the appraiser's determination of its size.
3. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand.
4. The appraiser has noted in the appraisal report any adverse conditions (such as, but not limited to, needed repairs, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the normal research involved in performing the appraisal. Unless otherwise stated in the appraisal report, the appraiser has no knowledge of any hidden or unapparent conditions of the property or adverse environmental conditions (including the presence of hazardous wastes, toxic substances, etc.) that would make the property more or less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, expressed or implied, regarding the condition of the property. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, the appraisal report must not be considered as an environmental assessment of the property.
5. The appraiser obtained the information, estimates, and opinions that were expressed in the appraisal report from sources that he or she considers to be reliable and believes them to be true and correct. The appraiser does not assume responsibility for the accuracy of such items that were furnished by other parties.

[REDACTED]

APPRAISER'S CERTIFICATION: The Appraiser certifies and agrees that:

1. I performed this appraisal by (1) personally inspecting from the street the subject property and neighborhood and each of the comparable sales (unless I have otherwise indicated in this report that I also inspected the interior of the subject property); (2) collecting, confirming, and analyzing data from reliable public and/or private sources; and (3) reporting the results of my inspection and analysis in this summary appraisal report. I further certify that I have adequate information about the physical characteristics of the subject property and the comparable sales to develop this appraisal.

2. I have researched and analyzed the comparable sales and offerings/listings in the subject market area and have reported
